

### **Construction of Handicapped Accessibility Ramps**

A building permit shall not be required for the addition, alteration or repair performed by the property owner upon his or her own personal residence (the residence the owner lives in) for an attached/detached accessibility ramp (not exceeding a slope of one (1) unit vertically to twelve (12) units horizontally) that does not exceed a (120) one hundred twenty-square foot footprint. This structure shall not incorporate electrical, HVAC or plumbing. Zoning and flood requirements shall be met as required. For construction of ramps which exceed these thresholds, a permit shall be required.

Where permits are required the fee is \$25.00 (\$29.00 total with inclusion of fees below).

*\* When calculating permit fees, include 1.5% for FL Building Surcharge & 1.5% for FL Recovery Fund. These fees will be added to the permit cost for each permit type. If the 1.5% is less than \$2.00, then the minimum of \$2.00 will be added for each permit type.*
