FUTURE LAND USE

Existing Future Land Use designation is Lake County Medium Urban Density. It provides a range of residential development at a maximum density of seven dwelling units per one net buildable acre, in addition to civic, commercial, and office uses at an appropriate scale and intensity to serve this category. Limited light industrial uses may only be allowed as a

conditional use, unless permitted as an Economic Development Overlay District use. May serve as a transition between more intense and less intense urban land uses.

Proposed Future Land Use designation is Lady Lake Manufactured Home High Density (MH-HD). Development within the Manufactured Home, High Density land use category shall be limited to manufactured homes. Densities cannot exceed nine units per acre. Single family, multi-family, commercial, and industrial uses are prohibited, however, a mixed use PUD shall be allowed as outlined in Policy FLU 1-10.2. Public facilities shall be allowed as outlined in Policy FLU 1-2.3 and Objective FLU 1-8.

POTABLE WATER: No impact; the lot is served by the Village Center Community Development District Central Water System.

SEWER: No impact; the lot is served by the Village Center Community Development District Central Sewer System.
