29 **SECTION 1 Amendment.**

30 “The Land Development Code of the Town of Lady Lake, Florida,” dated August 15,
31 1994 (the “Land Development Code”) is hereby amended as provided below:

1 Chapter 5, Section 5-4, "Zoning District Uses", of the Land Development Regulations; is
2 amended to provide an exemption from the requirement of a building permit and any
3 building setback requirements in accordance with Chapter 604.50 of the Florida
4 Statutes, provided an agricultural operation has been established as per the
5 definitions and criteria of the same chapter as set forth in Exhibit "A", attached hereto
6 and incorporated herein.

7 **SECTION 2 Severability.**

8 If any section, sentence, clause, phrase or word of this Ordinance is for any reason
9 held, or declared to be unconstitutional, inoperative or void, such holding or invalidity
10 shall not affect the remaining portions of this ordinance; and it shall be construed to
11 have been the Town Commission's intent to pass this Ordinance without such
12 unconstitutional, invalid or inoperative part therein; and the remainder of this
13 Ordinance, after the exclusion of such part or parts, shall be deemed and held to be
14 valid, as if such parts had not been included herein; or if this Ordinance or any
15 provisions thereof shall be held inapplicable to any person, groups of persons,
16 property, kind of property, circumstances or set of circumstances, such holding shall
17 not affect the applicability thereof to any other person, property or circumstances.

18 **SECTION 3 Conflicts.**

19 All ordinances or part of ordinances in conflict with any of the provisions of this
20 Ordinance are hereby repealed.

21 **SECTION 4. Codification.**

22 The provisions of this Ordinance shall be codified as and become part of the Codes of

8 4. Where a front yard of lesser depth than required exists in front of dwellings on
9 more than 60 percent of lots of record on one side of the street in any one block in
10 an MX-5 district, the depth of the front yard for any building hereafter erected or
11 replaced on any lot in such block need not be greater than the average depth of
12 front yards of existing buildings.

13 D) The maximum impervious surface ratio (which includes building coverage) shall not
14 exceed 45 percent.

15 E) The minimum floor area shall be 850 square feet exclusive of garages, screen
16 porches, utility rooms, etc.

17 F) The maximum building height shall not exceed 35 feet.

18 g) MX-8 "Mixed Residential Medium Density." This district is established to implement
19 comprehensive plan policies to provide moderate density single-family and manufactured
20 home dwelling units in urban environments at a density not to exceed eight dwelling units
21 per acre and it is intended to serve as a transitional zone between multi-family and single-
22 family residential uses.

23 1) Permitted uses.

24 A) Single-family detached dwelling units.

25 B) Single-family attached dwelling units.

26 C) Manufactured home, residential design (RDMH).

27 D) Two-family (duplex) dwelling units.

28 E) Guest or servant quarters not to exceed 30 percent of living area of the principal
29 dwelling unit pursuant to Miscellaneous Regulations chapter of this Code.

30 F) Customary accessory structures and uses incidental to the principal structure.

31 Accessory structures shall be limited in size to a maximum of 25 percent of the square

1 footage of the principal structure. Mobile Homes are subject to an allowance of 35
2 percent of the square footage of the principal structure.

3 G) Home occupations pursuant to Miscellaneous Regulations chapter of this Code.

4 H) Community residential home facilities with one to six residents.

5 I) Agriculture. A minimum of five acres is required for the keeping, harboring or
6 maintaining of livestock or fowl. Accessory structures and uses incidental to
7 agricultural activity shall ~~maintain a setback of 200 feet from any lot line~~
8 ~~[end delete]~~ **be exempt from the requirement of a building permit and any**

2 H) Non-medical marijuana sales

3 I) Cannabis farms.

4 4) Design standards.

5 A) Minimum lot area shall be 5,000 square feet should central utilities be provided but
6 overall density cannot exceed eight units per acre. Should septic tanks be utilized then
7 the minimum lot area shall be 12,500 square feet. Projects may be designed to allow
8 clustering of residential units; however, overall density cannot exceed eight units per
9 acre.

10 B) Minimum lot width shall be 50 feet. Should septic tanks be utilized, then the
11 minimum lot width shall be 100 feet. Minimum lot widths may be waived if clustering
12 of units is provided.

13 C) Minimum setback requirements:

14 1. Front yard setback:

15 a. Local roadway: 20 feet.

16 b. Collector roadway: 35 feet.

17 c. Arterial roadway: 50 feet.

18 2. Rear yard setback: 10 feet. A rear yard setback of seven-and-a-half feet if
19 adjoining an adjacent side yard for corner lots shall be permitted.

20 3. Side yard setback when adjoining:

21 a. Another lot: Five feet.

22 b. Local roadway: 20 feet.

23 c. Collector roadway: 35 feet.

24 d. Arterial roadway: 50 feet.

25 4. Where a front yard of lesser depth than required exists in front of dwellings on
26 more than 60 percent of lots of record on one side of the street in any one block in
27 an MX-8 district, the depth of the front yard for any building hereafter erected or
28 replaced on any lot in such block need not be greater than the average depth of
29 front yards of existing buildings.

30 D) The maximum impervious surface ratio (which includes building coverage) shall not
31 exceed 60 percent in the development.

1 E) The minimum floor area shall be 800 square feet exclusive of garages, screened
2 porches, utility rooms, etc.

3 F) The maximum building height shall not exceed 35 feet unless adequate fire
4 protection measures are provided.

5 h) MH-9 "Manufactured Homes High Density." This district is established to implement
6 comprehensive plan policies to provide for the establishment of manufactured home
7 dwellings in urban environments at a density not to exceed four units per acre unless central
8 sewer facilities are available at which time density is not allowed to exceed nine dwelling
9 units per acre.

10 1) Permitted uses.

11 A) Manufactured home rental parks for the placement of residential design
12 manufactured homes (RDMH).

13 B) Manufactured home subdivisions for the placement of residential design
14 manufactured homes (RDMH).

15 C) Accessory uses such as laundries, community buildings, offices, swimming pools
16 and recreational facilities shall be permitted subject to the following conditions:

17 1) The establishments shall not be advertised for patronage by the general public.

18 2) Recreational facilities shall in general be centrally located; in instances where
19 recreational facilities are dedicated to the public, facilities may be located
20 proximate to the exterior of the development such that traffic impacts are minimal

15 F) Any use prohibited by Town, state or federal law.

16 G) Medical marijuana dispensaries.

17 H) Non-medical marijuana sales.

18 I) Cannabis farms.

19 4) Manufactured home rental park development standards.

20 A) The developer shall submit Master Park Plans at the time of application, prepared in
21 accordance with the Design Standards subsection later in this section. Final Site
22 Development Plans must be submitted in accordance with the improvement
23 standards (i.e., water, sewer, drainage, etc.) in other chapters of this Code.

24 B) A manufactured home rental park shall be entirely enclosed, exclusive of driveways,
25 at its external boundaries in accordance with the buffer class requirements of chapter
26 10, Section 3.

27 C) Manufactured homes shall meet the setback requirements in the Design Standards
28 subsection later in this section.

1 D) There shall be at least two paved, off-street parking spaces for each home space,
2 which shall be on the same site as the home served and may be located in the front or
3 side yard of the home unit.

4 E) Streets, areas at the entrances to buildings used by occupants at night, and
5 walkways shall be lighted.

6 F) All manufactured homes in all zoning districts that permit manufactured homes
7 shall be skirted between the ground and floor of the manufactured home. The skirting
8 material may be contiguous blocks, bricks, treated lumber, aluminum siding, or a
9 suitable material as approved by the Building Official.

10 G) All lots should be permanently pinned (corner markers) at the corner points prior to
11 issuance of certificate of occupancy.

12 5) Manufactured home subdivision development requirements.

13 A) The developer shall submit Master Park Plans at the time of application, prepared in
14 accordance with the Design Standards subsection later in this section. Final
15 Development Plans and a plat must be submitted in accordance with the criteria as
16 established by chapter 7, Subdivisions and Plats, and shall meet the development,
17 design and improvement standards for subdivisions as stated in other chapters of this
18 Code.

19 6) Manufactured home subdivision, ownership limitations.

20 A) Any manufactured home subdivision in which any person, group, or company
21 obtains ownership of 10 percent or more of the subdivision units for rental or leasing
22 purposes, shall be deemed to be a manufactured home rental park and appropriate
23 licenses and/or permits shall be obtained from the Town.

24 B) Any builder(s), owner(s), or developer(s) of a manufactured home subdivision who
25 retains, or within a period of 18 months regains, possession of 10 percent or more of
26 the subdivision units for purposes of rental or lease shall be subject to the regulations
27 of the Town governing all aspects of manufactured home rental parks.

28 7) Design standards.

29 A) The minimum lot area shall be 5,000 square feet if central water and sewer facilities
30 are provided. Should septic tanks be utilized then the minimum lot area shall be
31 12,500 square feet. Projects may be designed to allow clustering of residential units;
32 however, overall density may not exceed nine units per acre. The lot shall be clearly
33 defined by permanent markers.

1 B) The minimum lot width shall be 50 feet measured along the building setback line if
2 central sewer is provided. If septic tank is used, minimum width is one hundred feet.
3 Minimum lot widths may be waived if clustering of units is provided.

4 C) The maximum building height shall be 35 feet.

5 D) Minimum setback requirements:

6 1. Front yard setback:

7 a. Local platted roadway: 20 feet.

8 b. Collector roadway: 35 feet.

9 c. Arterial roadway: 50 feet.

10 d. Local private paved streets: 25 feet off of edge of pavement.

11 2. Side yard setback when adjoining;

12 a. Another lot: Five feet.

13 b. Local roadway: 25 feet.

14 c. Collector roadway: 35 feet.

15 d. Arterial roadway: 50 feet.

16 e. Interior paved streets: 20 feet.

17 3. Rear yard setback: 10 feet.

18 E) The minimum living area shall be 800 square feet exclusive of garages, screen
19 porches, utility rooms, etc.

20 F) The maximum impervious surface ratio (which includes building coverage) shall not
21 exceed 60 percent.

22 i) MF-12 "Multi-Family High Density Low Rise." This district is established to implement
23 comprehensive plan policies for managing high density residential development at a density
24 not to exceed four units per acre unless central sewer facilities are available at which time
25 density is not allowed to exceed 12 units per acre. This district is established to ensure that
26 sufficient land is available for high density residential development.

27 1) Permitted uses.

28 A) Single-family attached residential dwelling units.

29 B) Single-family detached residential dwelling units.

30 C) Two-family (duplex) residential dwelling units.

16 be 12,500 square feet.

17 C) The minimum lot area for single-family attached shall be 3,000 square feet and the
18 use shall be permitted only if central sewer is available.

19 D) Projects may be designed to allow clustering of residential units; however, overall
20 density cannot exceed 18 units per acre.

21 E) The minimum lot width shall be 50 feet for single-family detached and duplex units
22 if central sewer facilities are provided. If septic tanks are utilized, the minimum lot
23 width shall be 100 feet. The minimum lot width for single-family attached shall be 24
24 feet.

25 F) The minimum tract width for a multi-family development shall be 100 feet for multi-
26 family units.

27 G) Minimum lot widths may be waived if clustering of units is provided.

28 H) The minimum living area for single-family units shall be 800 square feet exclusive of
29 garages, screen porches, utility rooms, etc.

30 I) The minimum living area for one bedroom duplex and multi-family units shall be 550
31 square feet exclusive of garages, screened porches, utility rooms, etc.

1 J) The minimum living area for two bedroom duplex and multi-family units shall be
2 700 square feet exclusive of garages, screen porches, utility rooms, etc.

3 K) The minimum living area for three or more bedroom duplex and multi-family units
4 shall be 850 square feet exclusive of garages, screen porches, utility rooms, etc.

5 L) For maximum impervious surface ratio (including building coverage), height and
6 setback requirements, see charts at the end of this section.

7 k) RP "Residential Professional." This district is established to implement comprehensive
8 plan policies for managing transitional areas where existing residential structures can be
9 utilized for personal and professional services and not adversely affect adjacent property.
10 The density cannot exceed four units per acre unless central sewer facilities are available at
11 which time density is not allowed to exceed 12 units per acre.

12 1) Permitted uses.

13 A) Single-family detached dwelling units.

14 B) Two-family (duplex) dwelling units.
